**SOSTUCH NOT MAN
GUILTY OF ASSAULT.****Man Arrested in the South
End of the County Not
Identified****BY MISS SHELAR TODAY****Was Taken to the Mill Town by Con-
stable William Driscoll This Morn-
ing—Foreigner Had Been in Jail for
the Past Two Days.**

With his hands securely fastened in steel handcuffs, John Sostuch, one of the suspects arrested in connection with the outrageous assault of Miss Camille Shelar, the pretty Mt. Pleasant school teacher on Monday evening, passed through this city today on his way to Mt. Pleasant, where he was taken for identification.

Sostuch occupied the rear seat in the passenger apartment of the 1030 West Penn car. Opposite him sat Constable William Driscoll of New Salem, who made the arrest. Driscoll felt confident that he had the right man. Whether or not he would have trouble on reaching Mt. Pleasant with the prisoner he was not certain. It is well known however that Driscoll is usually prepared for trouble and should any come up in the Westmoreland town it will find him prepared for defense.

The suspect who huddled back in his seat as if attempting to shield himself from public view, a bunch hat was pulled well down over his face. A three days' growth of beard didn't help his appearance.

At noon today, Miss Camille Shelar confronted John Sostuch in the office of her father, Dr. J. W. Shelar in Mt. Pleasant, and stated that the prisoner was not her assailant. Sostuch was at once freed and expressed his delight at having been cleared of so serious an offense.

On arriving at Mt. Pleasant Constable Driscoll hurried his prisoner to Dr. Shelar's office near the West Penn station. He quietly was the man brought into the borough that none knew of his presence. Driscoll was not the slightest chance for an outbreak of violence as predicted by some.

Miss Shelar said there was not the slightest resemblance between Sostuch and the brute who attacked her on Monday.

**McKeesport Boys
Witnessed Game**

Charles W. Soles and Russell H. Small of McKeesport were spectators at last night's basketball game at the guests of Official Scorer J. S. Munroe. Both are amateur athletes of the Tubo City. Soles was picked as an end on the all-star team for 1908 and 1909 when he attended Mercersburg Academy.

Besides being a football star Soles is also a clever basketball player. He gives such promise of developing into a valuable man that Captain Andy Sores tried to persuade him to try out with the Tubers last fall. He declined.

Soles is big enough to be one of the host of white men's hopes, but his inclination don't run that way.

**Sale of Houses
Held Up for While**

The matter of disposing of the large number of houses purchased recently by the Pittsburgh & Lake Erie railroad on the West Side in connection with the building of the Western Maryland's connecting link through this city, will remain in its present position until the return of Vice President and General Manager J. M. Schoonmaker, of the former road. This official has been in Florida for some time past but is expected to return to his Pittsburgh office within the next week.

A number of West Side residents are considering the purchasing of several of the houses, some of which are in excellent condition and would likely make profitable investments could reasonable prices be obtained from the present owner. There are any number of adjoining properties to which they could be moved and would bring excellent results.

It was said at the Pittsburgh office yesterday that no action would be taken in the matter until Mr. Schoonmaker's return. On his arrival, a meeting will be held and as is the usual custom at railroad conferences of this kind, those who have been connected with the work at this point will submit recommendations as to what they think would be the best action.

**Yough Medicos
Dr. White's Guests**

The members of the Yough Medicine Social Club were honored at their regular meeting last evening by the presence of Dr. P. F. Simpson of the Allegheny General Hospital, Pittsburgh. Dr. Simpson, as a surgeon, has a national reputation and is one of the most prominent surgical physicians of Pittsburgh. The meeting was the regular monthly one of the club and was held at the home of Dr. T. H. White on West Peach street.

All members were present and two visitors, including Dr. Simpson and Dr. Joseph Hazlett of Vanderbilt. The meeting was the best held for some time. At 8 o'clock the doctors and their guests assembled in the dining room to partake of a well appointed supper. A color scheme of yellow was carried out, with bouquets of daffodils as floral decorations. Following the supper it was decided to dispense with the regular business in order to hear an instructive talk by Dr. Simpson, who spoke at length on "Inflammatory diseases of the abdomen." Dr. Simpson urged the physicians to have their patients suffering from these diseases remain in bed until the acute attack had subsided and give nature plenty of time to work before an operation be performed. If the attack returns then an operation is necessary. The subject was interesting and was asked Dr. Simpson regarding the subject.

The next meeting will be held on Thursday evening, April 6, at the home of Dr. H. F. Atkinson on West Apple street.

**Finance Committee
Will Meet Tonight**

A meeting of the Finance Committee was called for this evening by Chairman W. H. Thomas. Various matters are to be taken up and considered. **BASKETBALL MEN
SQUARE ACCOUNTS.****Ended the Season With a
\$1,000 Deficit, It is
Reported.****HALL WOULD MEAN A PROFIT****Players Will Be Paid Off this After-
noon, Doherty and Kummer Being
First to Leave—When the Boys
Leave For Their Homes.**

This is "clean up" day for the Connellsville Athletic Association. The payroll was squared up this afternoon and the players are now free to leave when they choose. The experience gained by the basketball magnates cost them in the neighborhood of \$1,000. That is the approximate amount of the deficit, although no statement regarding the figures was given out. Early in the season The Courier predicted that the game would probably be a losing proposition the first season on although with a spacious hall there is no reason why the franchise should not prove a money maker.

Billy Kummer and "Plunger" Doherty will be the first of the players to leave for home. Kummer expects to return to Butler this afternoon while Doherty is headed for Vreeston, Mass. Saturday or Sunday will see the departure of Begg and Egolf for Reading, although both of them expect to be in Connellsville some time during the summer. Monday John Ahern and Steve White will leave for Philadelphia. Ahern will visit in Steve White's city for a few days before continuing to Cambridge, Mass., his home.

Captain W. J. Dark has no plans for the immediate future and will remain in town. He is anxious to spend the summer here and will make his home permanently in Connellsville. It matters about themselves in a satisfactory manner.

The basketball players are popular here on and off the floor, and deserve the very best of themselves. In fact, every one of them, and each will be assured of a cordial welcome upon his return next season.

**Interest in Drills
on the Increase**

Interest in drills at the Company D armory is increasing with surprising rapidity. Captain A. R. Kidd attributes the very rapid increase in attendance to the number of recruits who have joined recently.

Captain Kidd has been endeavoring to induce many of the best young men of town to become members of his company. He has been exceedingly fortunate in securing a number of well known young men who are certain to interest themselves in the work. With the addition of the new members, it is plain that the balance of the company are sitting up and taking notice.

"The prospects are bright and promising for making Company D the best of the regiment," Captain Kidd stated this morning.

**Truant Officer
Gets Hookie Boy**

Mrs. Olive Ringer, a widow residing on Reimold road, was directed to pay costs and a fine by Squire S. S. Kern of South Connellsville yesterday afternoon in the case brought against her by Truant Officer John B. Helms of Connellsville townships.

There were two cases, one for the continued absence of her 12 year old son, Clarence, and another for the absence of a daughter, age 11. A fine was imposed only in the case resulting from the boy's absence.

The defendant claimed the children had been sick. Squire Kern was pretty well acquainted with the facts of the case and knew that the boy had spent the greater part of his time on the streets. The girl was known to him. Mrs. Ringer promised to see that Clarence attended school regularly hereafter.

**Government Again
Busting Trusts**

UNITED PRESS TELEGRAM.
CLEVELAND, O., Mar. 3.—Suits were brought here today in the United States court by the government against 35 lump and electrical manufacturing companies controlling 97 per cent of the business of the country.

The government claims there is a monopoly of the business. This is the largest of the government's "trust busting" suits.

**Guffey and Dewalt
are Given the Hook**

HARRISBURG, March 3.—By the hair raising margin of a single vote the Democratic State Central Committee yesterday registered its decision in favor of a new party leadership in the State, with the specific recommendation that National Chairman James M. Guffey and State Chairman A. G. Dewalt resign in favor of successors yet to be named. Rules of the Democratic National and State committees give no authority for the action taken and it has no legal status, and can only be regarded as a protest against the further performance of their duties by the officials named. The result was unexpected and without a doubt it came as a greater surprise to the victorious than to the vanquished faction. Organization leaders, yesterday, were claiming a majority of the committee in the ratio of four to one. If they had it then it melted away during the night. It is said that Colonel Guffey was in possession of sufficient pledges to insure the defeat of the opposition. Many of those were broken. It is not necessary to say why.

In the statement issued after the meeting Colonel Guffey declared the action taken could in no wise affect his position as a member of the Democratic National Committee. Chairman Dewalt makes a similar statement concerning the effect upon himself and supported his position by quoting the party rules adopted by the last State convention. From the standpoint of either gentleman the committee's action must be regarded as merely a proposed amendment to the rules, which must be ratified by the State convention, which, as there are no State candidates to be elected this fall, will not be convened until 1912.

Miller of South Connellsville; "Our Papers," Mrs. Ida Ward March; "Missionary Jubilee Echoes," Mrs. E. G. Hall of Connelville; solo, Miss Ellen Jackson; noon prayer, Mrs. Anna L. Kerr. At 1:15 P. M. a meeting of the executive committee will be held. The speakers for the afternoon are Mrs. J. M. Buchanan, Mrs. C. E. Wilson, Mrs. C. K. Brooks, Mrs. C. M. Miller, Mrs. W. R. Clasper, of Connellsville, Miss Dorothy Young. Music will be rendered by Mrs. F. O. Goodwin of Connellsville and Mrs. Mahel McCormick Miller of Uniontown. **Foreigner With
Lots of Money**

The loss of a pocketbook containing \$70 in cash did not disturb the ease of mind of Joseph Garzek, of Mt. Pleasant, who sustained the loss somewhere between his boarding house in Mt. Pleasant and the Main street office of the West Penn trolley company at Greensburg yesterday. Garzek is a native of Hungary, speaks English fairly well and was possessed of all kinds of money when he reported his loss to Superintendent Chas. E. Fife of the West Penn.

After making known his loss Garzek proceeded to pull out checks from an inner pocket until he had twelve spread out on the office window, each of the checks calling for \$100, drawn on a Mt. Pleasant bank. Garzek wanted one changed so he could go on in to Pittsburgh, where he will have the rest of his fortune changed into the coin of his native country, to which he is now speeding.

Superintendent Fife immediately got in communication with the financial institution in Mt. Pleasant and was informed that the checks were worth 100 cents on the dollar with a further reserve fund. On this information Garzek was accommodated and his check for \$100 was cashed, he receiving ten \$10 bills.

Garzek took nine of the bills and opening his coat, vest and shirt, proceeded to pin the \$90 in bills inside his shirt with a safety pin. Having securely fastened the money the attendant color worker asked the railway policeman to make a search for the lost pocketbook on their cars and if found to report the missing property to him at the office of his Pittsburgh money-changer.

The loss of the \$70 did not cause the color worker the least concern in his pocket were bunches of money and the mere trifle of \$70 was a negligible. Garzek is on his way to visit the home of his boyhood in Hungary, after a few fruitless years spent in and around the Standard works at Mt. Pleasant, where he succeeded in gathering a small fortune in coin. Garzek's state of affluence is an indication of the times in the coke region where he earned all his money by the sweat of his brow. He was about 35 years old and unmarried. A sweetheart in Hungary is waiting for her John D.

**Was Bad Month
for Accidents**

As far as accidents are concerned, the month of February, though the shortest of the year, was a tough proposition for the Connellsville Division of the Baltimore & Ohio. There was a total of 11 accidents, seven of which resulted in death.

This is said to have been the largest number of cases to occur within a single month for the past nine years on this division. It is hard to realize that so many employees would meet an accidental injury in 28 days. Carelessness is blamed in nearly every case. The icy condition of the tracks, ties and cars on many days of the month may have had something to do with the increasing number.

**Victim of Rail
Patron of Rutsek**

The police this morning received word that a man killed by a freight train at Irwin during the night had in his possession a bank book bearing the name of C. G. Thort. The book was on Rutsek's bank.

Inquiry failed to reveal further information from this end regarding the identity of the victim and Coroner H. A. McMurray of Westmoreland county was informed.

**AN ELECTION
FOR LIEUTENANT****Of Company D to Be Held
on March Ninth at
the Armory.****WILL TAKE HETZEL'S PLACE****Man Who is to Be Elected Has Been
Selected and is Said to Be Admira-
bly Fitted Except That He Has Not
Had the Training.**

Captain A. R. Kidd, of Company D, this morning issued an order directing that the election to fill the vacancy caused by the resignation of First Lieutenant Wilhelm Hetzel be held on March 9th at the Armory at 8 o'clock P. M. A harmonious election is looked forward to by officers of the company.

It is said that several members of the company had thought seriously of coming out for the office, but on consulting their superior officers decided that they were not the ones for the position.

A person, to properly fill the office, must not only have a proper high school education and be of sufficient years to realize the responsibility, but he must also be able to suitably equip himself for the place. The State does not do the latter for officers, and the lieutenant-elect will be obliged to expend a little over \$200 at the start. At the end of each year he will receive \$50 to cover expenses, providing he can show receipts for that amount. He must have four uniforms, two olive drab for summer wear, a full dress and a dress uniform. Then there is a sword, revolver, holster and two belts to purchase, besides an overcoat. He must also furnish a bond in the sum of \$1,000. The last is required to protect the property of the State in the company. Captain Kidd furnished \$2,000 and has Second Lieutenant required to furnish \$1,000 security.

The election of the officer by the members of the company does not give the person elected the position. To begin with the captain can either approve or veto the election. Should he approve, then the matter passes from his hands through that of the colonel, regimental, brigade and division headquarters and is finally passed upon by the Governor.

In case the commission is not issued it will not be necessary to hold a new election. An officer of Company D stated today that the candidate for the position has practically been decided on. He is said to look but one thing necessary to make him an excellent person for the position and that is in training. But, he is said to have the time to acquire that.

First Lieutenant Robert S. McKee will conduct the election. Any vacancy or vacancies caused by the election will be filled by another election at the same time. It is necessary that every member of the company be present for the election. It is held so as to have the company properly officered that official work may be accomplished. Members will be paraded in blue uniform.

FRIDAY EVENING, MARCH 3, 1911.

THE PRESENT DUTY OF CEMETERY MANAGERS.

The managers of the cemetery associations of Conneltsville confess that the cemeteries have not been maintained in that condition which lot owners have reason to expect they should be kept, and in some quarters the suggestion is made that the lot owners should be appealed to for funds to make the necessary improvements.

In the earlier days of the cemetery, when land was plenty and its price was low, burial grounds were sometimes free and often bought by churches or associations on the mutual plan with the understanding that every family would be the caretaker of its own cemetery premises. The result was not very satisfactory. The old burial grounds of Conneltsville were worse neglected than those of the present day.

In modern cemetery practice, however, the land is held by a speculative company which sells the lots at liberal prices with a positive or implied obligation to make the premises attractive and to keep them so. Modern cemeteries financed on the right lines have sinking funds to meet the expenses of this obligation.

At least one of the Conneltsville cemeteries is a speculative corporation and it has paid back to its stockholders in dividends many times the amount of their original investments, yet this company does not seem ever to have thought of a sinking fund or to have recognized any serious obligation to maintain its cemetery in pleasing condition or even in decent repair.

Those charged with its management now state that its financial condition does not warrant any extensive expenditures for repairs and improvements. This may be true, but for a long period of years the stock had a reputation of paying relatively bigger dividends and more of them than any other corporation in the community. That was the time when a sinking fund should have been established for the care and maintenance of the cemetery, but unfortunately dividends looked better to the directors than duty.

The cemetery associations are not devoid of assets. If any of them have hoarded their resources by paying unwarranted dividends, they cannot on this score now excuse themselves of gross neglect of duty. A man may spend his money in riotous living, but his obligations remain.

It is up to the managers of the cemetery associations to establish sinking funds, remove from their premises the painful evidences of gross neglect and maintain them in that good order and beautiful appearance called for by their obligations to the lot owners and the community.

CONNELLSVILLE SPEAKS AGAINST DISCRIMINATION.

The Conneltsville Chamber of Commerce has passed resolutions commending the efforts of those engaged in the good work of establishing equitable freight rates on Conneltsville coke from the region to the markets.

Such resolutions come with good grace from "The Town that mace Pennsylvania Famous."

Whatever tends to improve the Conneltsville coke industry, either in volume or value, tends to promote the progress and prosperity of all the people of the region. It tends to better wages for the workmen; better business for the merchant; greater traffic for the railroads; the enhancement of real estate values; the enlargement of financial enterprises; the growth of cities, towns and villages.

It is the foundation of the Conneltsville region's commercial structure; it is the rock upon which the feet of the Conneltsville region people are set firmly; and the bigger and broader the rock, and firmer it acts, the more substantial is the business and industrial life upon which it is built.

THE HUMAN EXTRA GETS A JOB.
The President—Report for work early in April—and mind, this is to be a work and not a talkfest.

To enlarge and strengthen that foundation should be the aim of every Conneltsville region citizen in whatever station, because his own prosperity is in a greater or lesser degree indissolubly bound up in the Conneltsville coke trade.
The Conneltsville Chamber of Commerce appreciates these facts notwithstanding it is its constant endeavor to build up a greater community dependent upon diversified industries, to the end that the injury of one or more will not be the destruction or suspension of its industrial life.

THE INTENTIONS OF THE WESTERN MARYLAND.
The extended Unofficial Organ seems to doubt the information of Industrial Commissioner Gallagher of the Western Maryland railroad. It might have had more faith if it had heeded the exclusive item instead of The Courier.

The News says that these are the things Conneltsville has been striving for, but that they could hitherto get no satisfaction concerning them from the chief officers of the railroad company.
Most people are more disposed to talk more freely to the man with the olive branch than to the man with the ax. Some of the demands upon the Western Maryland were rather peremptory and perhaps that was one reason why the fountains of disclosure were suddenly dried up.

However, it is not the desire of The Courier to be critical of the efforts of the Chamber of Commerce to advance the interests of Conneltsville. They were undoubtedly well intended and they may have been well directed after all. The main springs of railroad management are usually concealed from the public eye.

The one certain thing in connection with the matter, however, is the fact that the extended Unofficial Organ fell down and feels a little sore from its fall.

THE BROTHERHOOD OF BROAD PHILANTHROPY.

John Mitchell has resigned as a member of the Civic Federation at the request and upon demand of the United Mine Workers.

There is nothing in the Civic Federation which any honest man need be ashamed of. The objections of the United Mine Workers to the Civic Federation are based upon the fact that some wealthy people are enrolled in its membership.

All rich men are not scoundrels or selfish seekers after personal gain. Many of them have become philanthropists seeking the advancement and uplift of the human race.

Their efforts and their money are as good as anybody's when expended in the right direction. There is no such thing as "tainted money" when it is employed in the promotion of the public good, and there is no reason why millionaires and labor leaders should not be brothers in the work of broad philanthropy.

The United Mine Workers ought to have thought twice before they spoke once, and John Mitchell ought to have betrayed more public spirit and personal courage.

The Unofficial Organ is somewhat perturbed recently about the Thine room. The Thine room is an established institution in Conneltsville, but it isn't always located in the same spot. Not very long since it was located in the Third Ward with branch offices on Main street and a little sub-station on the West Side. Editor Thompson can't tell the old citizens of Conneltsville anything new about Thine rooms, but they might tell him that.

The Fayette county newspapers are printing some pictures of very handsome and attractive citizens just now. We are almost persuaded that good looks are essential to political success.

When the doctors have a dinner party the patients are presumed to be patient.

The Unofficial court house found no difficulty in holding the imposing array of massive legal talent which crowded the main room last week and crowded the bench with the thunders of its eloquence and the lightning of its logic.

March marched in all right.

Senator Villhauer has better be fired out of the United States Senate.

Let's have anything within reason except Democratic House at Washington, because that sort of a House is utterly without reason.

The News intimates that the poetry printed on the editorial page of The Courier was not written by the editor. The intimation is not without very

Suspect at Scottdale Is Released; News of Day in the Mill Town.

Special to The Courier.
SCOTTDALE, March 3.—Alex Long, the Mayfield Italian, arrested on suspicion of having a knowledge of the attack on Miss Canfield Shuler, the teacher at Alto school, while she was coming from the school to the street car at Alto, Monday, was released yesterday. Miss Shuler, accompanied by her stepmother, Mrs. J. W. Shuler of Mt. Pleasant, and Miss Draglio, came down from Mt. Pleasant yesterday afternoon. The three ladies were brought into the Council room at the Borough building and Long was brought out before them. The three were seated by a window and Long deliberately walked over to the front of the room and asked if he was the man. She studied him carefully and said she did not consider him the man, although the general description was the same. Long was very polite to the ladies and bade them good bye and tipped his cap, as Chief McCadden told him that he might go. Long's sister was down in the afternoon and went about the lockup as if she thought Long's arrest was very serious. He was happy when he got free.

Boy Scouts' Work.
The official notice to the Boy Scouts has been given out by Scout Master H. S. Braco through Secretary Joseph Yabner for March. The troop hike for Saturday will start from the corner of Chestnut and Pittsburgh streets at 8 o'clock sharp. Each boy should bring a knife, a drinking cup, matches and his own food. Buns and beef go very well. Care should also be taken to wear shoes that fit comfortably. Several men have promised to accompany the boys and it is expected that the O. P. Koch's First Aid Class will be able to give a demonstration.

A special class in advanced work in First Aid has been arranged under direction of Mr. Koch. The boys in this class have finished the first of their certificates and the work will fit them for the First Aid on the Second and First certificates and the special honors for the First Class Scouts. The following boys are in the class: Arthur McIntyre, Ralph Newingham,

Julius Zeckhauser, Joseph Yabner, Fred Collins, Charles Colborn, Ralph Shuler and Albert Kolster.

Two new patrols have been formed during the month and meet as follows: Patrol No. 8, Joseph Knowles, leader, fourth Thursday, and Patrol No. 9, George Reed, leader, third Friday. Drawing Teacher's Call.

Mrs. M. E. Van Wagener, director of drawing in the Pittsburgh schools, was here visiting Mrs. C. H. Urey, teacher of the branch in the local schools. The visitor was greatly pleased with the beautiful new High School building and said that the town is to be congratulated on having such a handsome, commodious and well arranged school building. The teachers of the various rooms gave an interesting informal talk on art. The work accomplished by the Scottsdale pupils already was complimented in high terms, and said that the examples shown prove that art is being taught in the schools here with a definite aim, and as the study affects the every day life of the pupil, teaching the girls to select clothes of harmonious shades, to be independent of the dressmaker in choosing what will look best, to know about home furnishings, and in many ways making a practical use of what they learned in the studio.

PHILADELPHIA, Pa., March 3.—(Special.)—Joseph Wharton, founder of the Wharton school of finance and commerce of the University of Pennsylvania, quietly celebrated his 85th birthday anniversary today at his magnificent home at Oak Lane.

The problem is to find a tailor who can and will please him. Our new spring line of woolsens is now complete and we invite your inspection and will guarantee entire satisfaction of your money will be cheerfully refunded. **O. A. SEEING THE FAR EAST.

It Should Be Viewed Through the Bible and "Arabian Nights."

The best books on the east, as every one knows, are the Bible and the "Arabian Nights," and yet I found most travelers were unimpressed by them with any vivid descriptions of monuments and places, with tabloids of architecture and the ethnic religious, with figures about the height of life and the length of that or condensed statistics of exports and imports and dates about the Pharaohs and the Mughals. No wonder they are not known nothing, enjoy nothing and come home bringing a few expensives, adjectives and photographs which can be had for a small price in either New York or London.

The first thing to do in going to the east is to turn your education out on your desk so that you can get at the bottom of it, and there you will find the Bible and the "Arabian Nights" and the "Odyssey" and "Hindu" and "Vergil" and "Herodotus" and "Xenophon," and you will realize what a fool you were not to have devoted more time to them when you were asked to do so. Guide books can get you to the east, but they do not get you inside. It is temperament, not trunks, that counts—Price Collier in Scribner's Magazine.

Sterilizing Fruit Jars.

If fruit has once spoiled in a jar, the same thing will happen again unless the jar has been thoroughly cleaned and sterilized. It is not enough to merely wash the jars; they should be boiled. To make sure that they are in good condition, put them in a pan of cold water in which has been dissolved a tablespoon of Gold Dust washing powder; let come to a boil. The tops, also, should be immersed in boiling water, and old rubbers should never be used. After filling can shake and screw top on carefully to avoid air-holes.

The Incessant Stream of Delighted Buyers

who have literally deluged us with business since the first announcement of the purchase by Featherman Furniture Company of the stock and business of your big furniture store—joyfully added their testimony to that of the hundreds of thousands of customers of our associate stores in other cities, and unanimously proclaim this "THE STORE OF BETTER VALUES."

Maybe You Have Not Yet Visited the New Furniture Store?

Perhaps you are wondering why the great buying public display so great an amount of interest in this new furniture company—why our customers are so faithful—so enthusiastic. The REASON IS PLAIN—it's simply because your new firm takes a personal interest in each customer—business is conducted on a broader, newer plane—it is not enough for us to be told by our customers that we saved them from 25 to 40 per cent.—it is not enough for us to be complimented on the size, the variety, the elegance of our stocks—these conditions are merely the result of the size—the tremendous purchasing power of our chain of great stores—we must also know that every sale is so conducted as to awaken in the heart of each customer a feeling of co-operative interest—a desire to help make this big store even bigger—a feeling of satisfaction—of confidence—of friendliness that will endure long after the details of the business transaction are forgotten.

This is the foundation upon which we will build, firm as a rock, the best furniture store in the State. Our books as well as our doors are open wide to honest people everywhere—Don't delay your coming.

COKERS LOSE THE CLOSING CONTEST.

Uniontown Ends Season by Winning Its Only Game Here.

HARD FOUGHT THROUGHOUT

Only Two Small Points Separate the Teams at the Finish—Steve White Shows Fans He Can Play Basketball Despite Bad Foul Shooting.

THIS SEASON.

Dark made the first field goal on the home floor. A. Brown made the last.

Kummer shot the first foul shot on the home floor; likewise the last.

Uniontown lost the first game on the home floor and won the last.

Kid Dark played in every game, at home and abroad. All the Cokers who played in the first game here this season played in the last save Doyle and Egolf. White played for Uniontown in the first game; for the Cokers in the last.

Final Score.

Uniontown 35; Connelville 33.

Final standing:
McKeesport 40 21 709
South Side 34 22 699
Johannston 31 23 690
CONNELLSVILLE 31 23 683
Homestead 22 32 467
Uniontown 20 32 458
*Disabated.

The Cokers won the opening game of the season by defeating Uniontown. Uniontown wound up the season by beating the Cokers at their own game. It was the only game Uniontown won here this season. It was also one of the very few games that Connelville has lost on the foul line. Failure to score more than once from the floor in the second half was also more largely responsible.

The Cokers played the better game in the first half but Steve White could not connect with his fouls. The half ended 23-25 in Uniontown's favor. As the bell rang at the close of the half White shot a field goal, but it was thrown out because Referee Galtier called a dead ball before the toss was made.

In the second half the Cokers tied the score with a foul shot at 25. Kummer also tied it at 29 and 30. The Cokers cut the lead down again to one point with less than two minutes to play but there was no more scoring because Uniontown killed time.

The close of the first half was also exciting. With but a few seconds to play Kid Dark shot a field goal from well back of the center of the case and at one side. The shot went true. This reduced Uniontown's lead to one point. Dark also made the only field goal in the second half.

In the first half Steve White and Doherty had three goals each, Ahern pocketed two and Dark got one. Billy Kummer went into the game in the second half, plainly in bad condition. Despite the fact that he should have been on the sick list, he shot nine fouls in succession, missing his last chance. The attendance was large, but somewhat of a disappointment. There were less than 700 paid admissions. The lineup:

Cokers—33. Uniontown—35.
White Forward
Dark Guard
Ahern Center
Biggs Guard
Doherty Guard
Substitutions—Kummer for White, White for Briggs
Field goals—Doherty 5, White 2, Dark 2, Ahern 2, Kinkaid 2.
A. Brown 2, Smith 1.
Foul goals—Kummer 9 out of 10; White 1 out of 10; Dark missed one; Adams 15 out of 25.

Finis.
Kummer, Ahern and Doherty expect to leave town this afternoon. It is probable the others will wait until the first of the week. "Flinger" is to play for McKeesport at Gloucester Monday night.

A number of Central League players are breaking into the Hudson River League for the remaining month of the season. Fearl has announced his intention of joining Kingston.

Steve White played a mighty good game last night despite his foul shooting. He made three field goals off Flinger.

Doherty outplayed Smith, scoring three goals to one. The Cokers showed weak in the second period although their gunting was terrific. Kummer's fouls kept the locals in the game.

White had hard luck when his fourth basket in the first half was thrown out. That didn't increase Galtier's popularity.

Each team cased 10 field goals. The Cokers got nine of theirs in the first half. A few more in the second would have made the outcome different.

Kid Dark's two baskets were sensational. His first one was a long shot just as the gear tapped in the first

half. The second opened the second half but came after Adams had dumped a goal in.

Adams' first goal was the protest of the gunner's backward shot while closely guarded. No discounting Adams as a touser.

Quite a few Uniontown fans were among those present. They were happy, anyway.

Lee Egolf left his suit case on the car and could not don a uniform until it had been transferred to another car and brought back to the hall. The suit arrived before the game started.

Baldheaded Men

Ignorance of the Hair Causes Much Baldness Among Men.

Early plenty doesn't cause baldness, neither does any kind of pity. Some baldheaded men console themselves with the idea that baldness is caused by a superabundance of gray matter, and would have the world believe that a baldhead is a sign of great intellect. Such, however, is not the case. Ninety-nine times in one hundred, baldness is caused by dandruff germs, which dig down deep into the roots of the hair, destroy its vitality and cause it to fall out.

All this may come gradually and take time, but as an up-to-date humbug list would say "what's time to a dandruff germ?" If you have dandruff, the little invisible, persistent devil called dandruff germs are at work. Destroy them at once, or sooner or later they will cause your hair to fall out and you will be compelled to take your place in the baldheaded class.

In Franco baldheads are few because men understand how to care for the hair. Parisian Sago is a hair grower and invigorator that is maintained by A. A. Clarke to grow hair if the hair root is not already destroyed, to eradicate dandruff, stop itching scalp and falling hair, or money back.

BIG EARNINGS

For the Steel Corporation During the Present Quarter.

According to the Wall Street Journal of yesterday, if the improvement in steel operations which began late in January continues, the United States Steel Corporation may show net earnings of between \$21,000,000 and \$25,000,000 for the current quarter. Orders booked guarantee shipments averaging close to 28,000 tons per day between January 1 and March 31. Of course a great deal will depend upon the action of the railroads in specifying shipments directly booked.

The January earnings of the Steel Corporation, it is stated, could not have been much in excess of \$7,000,000, and February earnings, as a result of holidays and its being a short month, may not reach \$9,000,000. March earnings should be between \$9,000,000 and \$10,000,000, which would bring the total net for the quarter between \$21,000,000 and \$25,000,000.

The following table gives the net earnings of the Corporation in the first quarter of each year from 1902 to 1911, inclusive, first three months of this year being estimated:

1911...\$22,000,000 1908...\$20,471,400
1910...\$22,000,000 1907...\$22,000,000
1909...\$22,000,000 1906...\$22,000,000
1908...\$22,000,000 1905...\$22,000,000
1907...\$22,000,000 1904...\$22,000,000
1906...\$22,000,000 1903...\$22,000,000
1905...\$22,000,000 1902...\$22,000,000

HE JUST SAVED.

Interesting Story of an Old Gentleman Who is Quite Wealthy.

The other day, an old gentleman who lives in North Pittsburgh street and is quite well off, when asked how he accumulated his money said: "Why, I just saved—always put by a little out of every dollar I made. When I got a good sum together I bought a piece of property. It rose in value after a while and I sold it. Then I bought more property and sold it too at a profit. No, I was never in business for myself. I worked for other people all my life, but as I said before, I always saved something out of every pay."

The next of the old gentleman's story is that he "just saved," and that is something that anyone can do if he honestly tries. A Savings Account is a great help. You can open one with the First National Bank of Connelville with \$1. Four per cent. and absolute safety guaranteed.

AUTO SUGGESTION

At Picture Show Responsible for Chetley's Suicide.

"That Israel Chetley, who killed himself in a nickelodeon in lower Fifth avenue, Pittsburgh, while a moving picture film was showing a soldier committing suicide, was a victim of auto suggestion was admitted yesterday by physicians and police. William Chetley, his brother, said he could give no other reason for the man shooting himself other than that he had become mentally unbalanced while intently studying the tragic scene depicted on the screen.

The body of Chetley lay in the morgue unidentified until yesterday afternoon, when William Chetley, a partner in the business of Brownsville, Pa., recognized it as that of his brother, aged 23, who had been employed as a clerk in the pawnshop of William Chetley until February 1.

He thinks his brother, whose body he took to Brownsville yesterday for burial, is a victim of auto-hypnotic suggestion. Police Inspector Bartley and two specialists of mental and nervous diseases with whom he consulted held the same view.

Startling tests were made yesterday to verify this belief. Two ex-convicts were taken to a nickelodeon by the police inspector and specialists. One of the men had served part of a sentence in the Western penitentiary for murder, and the other had become a thief after his wife proved unfaithful.

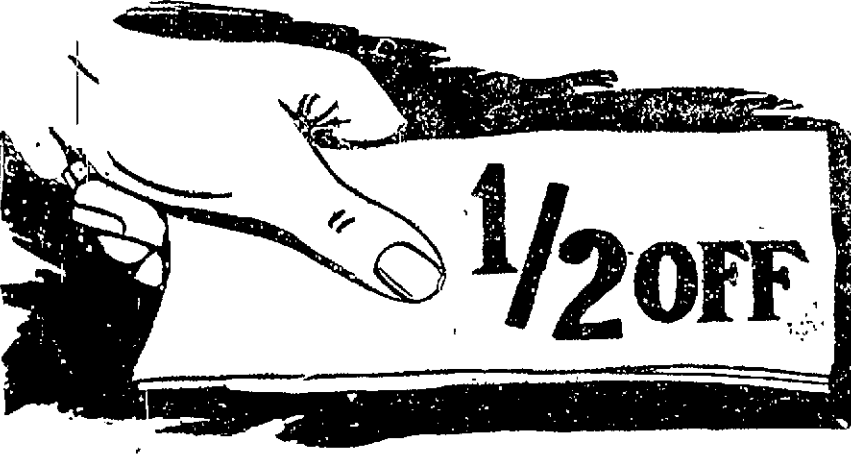

The specialists, on condition that their names be held secret, agreed to study the effect of pictures upon the criminals.

The ex-convict who had committed murder was intensely excited and almost violent when a picture was shown depicting a burglar who had been apprehended making an attempt to escape from his captors. When revolvers were drawn the spectator seized the back of the chair in front of him. The muscles of his face twitched.

There was a remarkable dilation of the eye pupils, followed by a general twisting and contorted condition of the entire body. Great beads of perspiration gathered on the man's forehead, and for a time he was, from all appearances, completely hypnotized and mentally was reacting the part played by the captured burglar in the picture.

Almost a counterpart of the actions of the husband of the woman who was had been discovered was enacted when this picture was displayed on the screen. The man in the audience, who was under the observation of Inspector Bartley and the two specialists, at first showed all the poignant grief and despair of an outraged husband who discovers his home has been wrecked by a supposed friend.

As the scenes rapidly followed and the story was minutely told, the man under observation, who has suffered similar agony, became almost a maniac. It was with difficulty that he was at times restrained. Half a dozen nickelodeons were visited and the same results were obtained in all of them.
